WINNINGER SEKTMANUFAKTUR C-KLOSS

- Product Description + Additional Information -

The Winner Sektmanufaktur produces individual, high-quality sparkling wines using traditional bottle fermentation with several years of lea-aging. There is also a wide range of seccos and pét-nats. Sparkling teas/coffee complete the range: modern non-alcoholic wine alternatives based on regional ingredients.

SPARKLING TEA ROSÉ – FRUIT TEA • HIBISCUS

Besides a range of sparkling teas made only from regional ingredients we also developed a range of **non-alcoholic wine-alternatives based on the finest Asian teas**.

- Main ingredients are herbal and fruit tea made via a cold brew extraction.
- The fruitiness derives from Moselle grape juice; the colour from Hibiscus tea.
- We achieve the mouthfeel primarily via ethereal oils from several blossoms plus tea leaves but still super-dry with <20 g/l sugar
- The tea is unfiltered, has a pressure of approx. 3.2 bar, and is sealed with a crown cap.
